APPENDIX II: THE HONG KONG STOCK EXCHANGE
ESG REPORTING GUIDE INDEX

1. ABOUT THIS REPORT

TradeGo FinTech Limited (“**TradeGo**” or the “**Company**”) and its subsidiaries (the “**Group**” or “**we**”) are pleased to announce our fourth environmental, social and governance (“**ESG**”) report (the “**ESG Report**” or the “**Report**”). This Report explains our work and key performance indicators in environmental and social areas during the period from 1 April 2021 to 31 March 2022 (the “**Reporting Period**” or the “**Year**”), demonstrating to stakeholders our principles and concept of sustainable development and the fulfillment of corporate social responsibility.

Reporting Standard

This Report is prepared in accordance with the requirements of the “Environmental, Social and Governance Reporting Guide” (the “**Guide**”) as set out in Appendix 20 to the Rules Governing the Listing of Securities on GEM of The Stock Exchange of Hong Kong Limited (the “**Hong Kong Stock Exchange**”), and is in compliance with the “general disclosures” and “Comply or Explain” provisions under the Guide, with additions of recommended disclosures. Readers may refer to the last section headed “Appendix II: THE HONG KONG STOCK EXCHANGE ESG REPORTING GUIDE INDEX” of this Report for quick reference.

Reporting Scope

Unless otherwise stated, the content of this Report covers the business directly controlled by the Group and collects data from our Shenzhen offices for assessment of environmental key performance indicators. For details of the Group’s corporate governance, please refer to the section headed “Corporate Governance Report” in the Group’s 2021 Annual Report or visit the Group’s official website (www.tradego8.com).

Reporting Language

This Report is prepared and published in both Traditional Chinese and English. In case of discrepancies, the Chinese version shall prevail.

Feedback on the Report

We value your comments on this Report. If you have any enquiries or suggestions on this Report or the Group’s sustainable development strategies, please feel free to contact us via email at master@tradego8.com.

2. ABOUT THE GROUP

The Company is one of the leading integrated securities trading platform service providers, serving primarily Hong Kong brokerage firms and their clients. As a financial service provider, we are committed to assisting customers in achieving their goals by offering convenient and quick securities trading services. The Group's integrated securities trading platform services mainly consist of (1) front office trading system services; (2) market data services; (3) hosting and cloud infrastructure services; (4) Software as a service ("**SaaS**") services; and (5) other value added services.

The Group continues to improve its integrated securities trading platform services to keep pace with regulatory and new industrial requirements. Our securities trading platform software supports transactions in a variety of financial instruments, including stocks, ETFs, futures, options, warrants and derivatives. Customers and end users can log onto our securities trading platform software through various channels such as major operating systems (including Microsoft Windows, MacOS, Android and iOS) as well as mainstream platforms (such as web browsers) and conduct securities trading operations. The Group has provided cloud-based market and trading integrated terminal products and system services to over 150 brokerage clients and has helped them improve operational efficiency through our various products.

We have developed an online account opening system that allows non-face-to-face account opening via the Internet to help customers process their applications efficiently. To date, over 120,000 users have opened securities accounts with our brokerage clients through the system.

The Group provides registered users with value-added services such as initial public offering information, market quotes, listed company information, online account opening services, IPO subscription services and share trading services through "TradeGo Pro". As at 31 March 2022, "TradeGo Pro" has more than 670,000 registered users.

TradeGo Markets Limited ("**TradeGo Markets**"), an indirect wholly-owned subsidiary of the Company, has applied to the Securities and Futures Commission of Hong Kong for type 1 (dealing in securities) and type 7 (providing automatic trading services) regulated activity licences in Hong Kong. TradeGo Markets plans to provide an over-the-counter electronic trading platform for trading of shares of companies to be listed on the Stock Exchange in an initial public offering prior to the official listing.

Due to the outbreak of the novel coronavirus disease, more and more institutional clients realise the necessity of transferring the service system to the cloud. At the same time, our SaaS revenue continues to grow, and as a platform provider connecting institutional clients, particularly Hong Kong brokerages and individual investors, we expect the share of SaaS revenue to become increasingly important in the future.

3. PHILOSOPHY OF SUSTAINABLE DEVELOPMENT

The Group is committed to providing sustainable services by incorporating the philosophy of sustainable development into our corporate development strategy. We have established the Corporate Environment Policy (《企業環境政策》), comprising four areas, namely product and service, staff, environment and community, and mapped out the direction of the corporate social responsibility efforts we deploy beyond business development. During the Reporting Period, based on the scope of the Corporate Environment Policy and our latest business development, we outlined four key focuses as the strategy of sustainable development, namely “quality services”, “people-oriented”, “green development” and “contribution to the society”.

3.1. Board Statement

TradeGo has been working on the Group’s sustainable development. We established an Environmental, Social and Governance Committee (the “**ESG Committee**”), comprising executive directors, chief operating officer and senior management of the functional department. Led by the board of the Company (the “**Board**”), the ESG Committee draws up the Group’s strategic planning and policies on environmental, social and governance (the “**ESG**”), and promotes integration of sustainability into the decision-making processes and daily operations of the business unit. The Board remains solely responsible for the Group’s ESG strategy and reporting. Through materiality assessment, we understand stakeholders’ expectations, identify and prioritise material ESG issues to develop appropriate ESG approaches and strategies.

We identify and assess major ESG risks that may have an impact on us, including data security, privacy protection, intellectual property/patent protection, and take various measures to manage these risks. We are also aware of climate-related risks such as the possibility of extreme weather leading to service disruptions and temporary office closures, and therefore we have set out corresponding measures to mitigate the negative impact of these risks. We have set environmental targets, covering areas of energy efficiency, water use efficiency, waste reduction and greenhouse gas emissions, and will monitor and follow up their progress so as to reduce consumption of natural resources and the environmental impact of our business operations.

3.2. ESG System

The Group has established an ESG Committee, comprising executive directors, chief operating officer and department heads of the Company, for the purpose of managing the Group's ESG related issues. The ESG Committee regularly reports to the Board on the direction and progress of ESG work, assesses ESG risks and reviews whether relevant internal control system is appropriate and effective. During the Reporting Period, the ESG Committee also assisted the Board in assessing, determining and prioritising material ESG issues pertinent to the Group as more responsibilities are expected of the Board by the Stock Exchange.

The major duties of the ESG Committee are as follows:

Identify the ESG matters that have a material impact on the Group and its stakeholders, including the quality of working environment, environmental protection, operational practices and community participation;

Maintain the operation of the corporate social responsibility management system and enhance the corporate social responsibility awareness among our staff;

Promote each department to execute various ESG policies;

Identify and solicit stakeholders' opinions on material ESG matters through appropriate channels and respond accordingly;

Review and monitor the Group's ESG policies and practices;

Ensure that the Group complies with relevant legal and regulatory requirements, monitors and responds to the latest ESG issues;

Propose suggestions to the Board at appropriate timing, so as to improve the Group's ESG performance.

3.3. Stakeholders' Involvements

While actively developing our business, we are also sensitive to the concerns and expectations of our stakeholders. We value and collect the views of our various stakeholders (including customers, suppliers and employees), both internally and externally, through a wide range of channels. Their advice helps us to stay abreast of the market, improve our business performance, as well as identify the downside of our previous work, inspiring us to explore future opportunities for sustainable development.

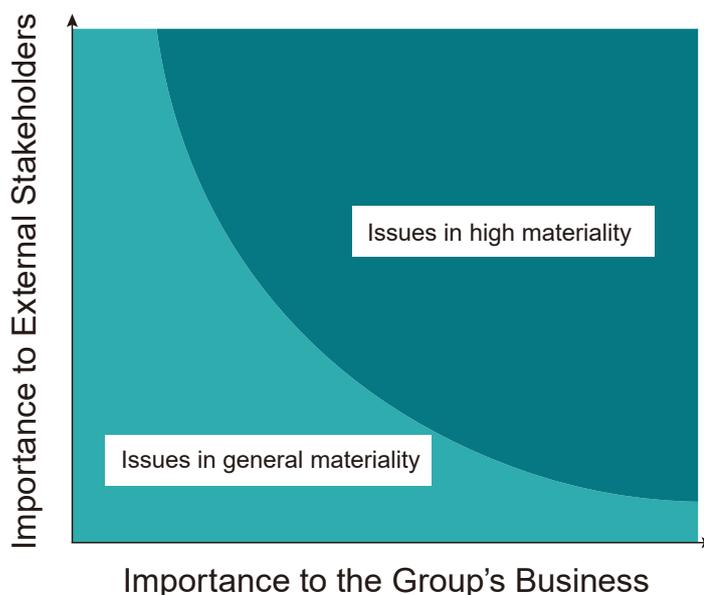

Major stakeholders	Communication channels
Customers	<ul style="list-style-type: none"> • Customer satisfaction survey and feedback form • Customer service centre • Daily operation/communication • Online service platform • Telephone and service hotline • Mail box
Shareholders/ Investors	<ul style="list-style-type: none"> • Annual general meetings and other shareholders' meetings • Interim reports and annual reports • Corporate communication, such as letters/ circulars to shareholders and meeting notifications • Results announcements
Staff	<ul style="list-style-type: none"> • Staff's channels to express opinions (forms, suggestion boxes, etc.) • Work performance appraisals • Interviews • Business presentations • Special consultation committees/panels • Seminars/workshops/lectures • Staff communication conferences

Regulators	<ul style="list-style-type: none"> • Written response to public enquiries • Compliance reports
Media	<ul style="list-style-type: none"> • Results announcements
Community/ Non-governmental organisations	<ul style="list-style-type: none"> • Community activities
Professional groups	<ul style="list-style-type: none"> • Meetings • Mails

3.4. Materiality Assessment

To enhance the materiality of our sustainability disclosures, stakeholders were invited to take a questionnaire to prioritise ESG issues by scores. Based on the result of the materiality assessment, we focus our disclosure on the issues of most concern to our stakeholders.

Establishing a list of material issues	We established a list of material ESG issues that are most relevant to stakeholders and the Group’s business by referring to a wide range of standards and guidance, including the Guide of Hong Kong Stock Exchange, the Sustainability Accounting Standards Board (“ SASB ”) materiality map and industry trends.
Conducting a questionnaire on material ESG issues	We invited stakeholders, including management, directors, customers, staff and professional groups, to take an online questionnaire and rank different issues according to materiality.
Determining priorities for ESG issues	We reviewed the priorities for each issue based on the two dimensions of “importance to the Group’s business” and “importance to external stakeholders”, and compiled the results of the materiality assessment.

TradeGo Materiality Matrix

Materiality	No.	Material issues
High	1.	Staff remuneration and welfare

	22.	Community charity

4. QUALITY SERVICES

We strive to provide quality products and services, while constantly pursuing high quality and integrity standards, and have put in place various risk management and internal control policies to operate our business in a pragmatic manner and in strict compliance with business ethics and compliance standards.

4.1. Anti-corruption

The Group abides by laws and regulations such as the Supervision Law of the People's Republic of China (the "PRC") (《中華人民共和國監察法》), the Securities Law of the PRC (《中華人民共和國證券法》), the Company Law of the PRC (《中華人民共和國公司法》), the Criminal Law of the PRC (《中華人民共和國刑法》), the Regulation on the Supervision and Administration of Securities Companies of the PRC (《中華人民共和國證券公司監督管理條例》), the Regulation on the Administration of Futures Trading (《期貨交易管理條例》), the Measures for the Compliance Management of Securities Companies and Securities Investment Fund Management Companies (《證券公司和證券投資基金管理公司合規管理辦法》), the Guidelines for the Compliance Management of Securities Companies (《證券公司合規管理實施指引》), and the Anti-Money Laundering Law of the PRC (《中華人民共和國反洗錢法》). The Group's operation in Hong Kong is also subject to Prevention of Bribery Ordinance (《防止賄賂條例》), Anti-Money Laundering and Counter-Terrorist Financing Ordinance (《打擊洗錢及恐怖分子資金籌集條例》) and other relevant laws and regulations of Hong Kong regarding anti-corruption, bribery, extortion, fraudulent behaviour and money laundering.

A training session on Anti-corruption was conducted by the Group's Hong Kong legal adviser for directors during the Reporting Period.

As a financial services provider, we attach particular emphasis to financial-related compliance and provide top-to-bottom oversight of the Group's operations for compliance with governance practices and regulations. We have established an audit committee, comprising three independent non-executive directors, to review and monitor our financial reporting procedures and internal control systems. It regularly reviews the effectiveness of our risk management and internal control systems, makes recommendations to the Board on matters relating to corporate governance, and rectifies any issues at an early stage. Our compliance department publishes an annual Risk Compliance and Internal Control Management Report (《風險合規及內控管理報告》), which provides an overview of legal compliance, the current state on risk management, business oversight and inspections, etc. During the Reporting Period, there were no significant monitoring failures and no material matters were brought to the attention of the Board. During the Reporting Period, we provided an anti-corruption training to our directors and staff. We plan to invite qualified professionals to conduct training for directors and staff in the future in order to enhance their anti-corruption awareness.

We have appointed dedicated finance staff and filing managers for the management of the Group's funds, bills and contracts. All aspects relating to the movement of funds are governed by established approval processes, including external purchases, outsourcing of services, recruitment of staff, salary adjustments, sales and expenses, etc. Staff are required to follow procedures in handling outflows of funds, and relevant applications are subject to the approval of designated departments such as administration department, compliance department, finance department, sales department and even the chairman.

Our business is closely linked to trading in the financial markets. To avoid the risk of insider trading, the Company has an inside information disclosure policy which sets out guidelines on the reporting and dissemination of inside information, and requirements of the confidentiality and compliance with trade restrictions for staff. The Board also reviews and assesses the risk of leakage of inside information on a regular basis and will report any leakage of inside information as soon as it is discovered.

During the Reporting Period, the Group did not identify any lawsuits against the Group or the employees, or any cases of corruption, bribery, extortion, fraud and money laundering.

4.2. Data Security

As a leading service provider of integrated securities trading platform, the Group always regards protecting information security as the top priority, and is committed to ensuring information system security in all directions. We strictly comply with the Confidentiality Law of the People's Republic of China (《中華人民共和國保密法》) and the Implementation Measures of the Confidentiality Law of the People's Republic of China (《中華人民共和國保密法實施辦法》), and protect information security and customer privacy through various measures. We set up the Password and Permission Management System (《密碼與權限管理制度》), the Computer Equipment Management System (《計算器設備管理制度》) and the Company's Computer Room Security Management System (《公司機房安全管理制度》), and prohibit the installation of pirated software, set up permissions for data transfer and access, and protect information through methods such as account management and multi-level password management. In terms of data processing, we stipulate that employees shall not disclose to anyone all undisclosed data and business information related to the Group acquired during their employment without the prior consent of the Group. We require post-leaving personnel who acknowledge and possess our business secrets to sign relevant confidential agreements. We also require management approval for the disposal of data storage devices, and record the date of disposal and related data, so as to ensure the data has been completely deleted and prevent leakage of customer and company information.

In addition, the Group has installed and continuously updated system firewall and anti-virus software, so as to prevent hackers from obtaining any information from the Group's systems. We also conduct regular system testing and evaluation, and provide cyber security training to our technical personnel, so as to enhance the ability of our technical team to combat cyber-attacks.

4.3. Intellectual Property Rights

We keep improving our trading platform software systems and continue to enhance the market data support system and develop the tools that control the effectiveness of market support services. Since we invest a lot of resources in Research and Development (“R&D”) and service enhancement, we are committed to protecting our proprietary intellectual property rights. In case of an infringement of our intellectual property rights, we will assess its materiality and impact on our reputation and operations and consider taking legal action if necessary. Apart from protecting our own property rights, we also respect the intellectual property rights of other products and strictly comply with the laws and regulations such as the Patent Law of the PRC (《中華人民共和國專利法》), the Detailed Rules for the Implementation of the Patent Law of the PRC (《中華人民共和國專利法實施細則》), the Trademark Law of the PRC (《中華人民共和國商標法》), the Intellectual Property Law of the PRC (《中華人民共和國知識產權法》), the Patent Ordinance (《專利條例》) and Copyright Ordinance (《版權條例》) of Hong Kong. We also standardised the intellectual property management including trademark right, patents right, copyright, etc. In our daily operations, we may also refer to various data, content, images and other data involving the copyright of others, and we pay special attention to whether we have obtained the permission or authorisation from the copyright owner when using such data.

4.4. Quality Assurance

We place great emphasis on quality control to ensure that our customers have a smooth and convenient experience with our platform services and browsing investment information. Our quality control efforts cover all aspects of our business, from the procurement of cloud servers, product development, data storage to infrastructure maintenance, with checks in place. Regarding the software development phase, we have complied with specific guidelines based on the standard of Capability Maturity Model Integration Level 3, a process level improvement training and appraisal standard administered by the CMMI Institute.

We continue to expand hardware infrastructure capabilities by purchasing test mobile phones of different models from different manufacturers to enhance the compatibility of our software with different devices. We also conduct product testing to ensure that the service works in a variety of hardware equipment and operating systems. We also acquire and upgrade software for R&D and for office use and enhance the conversion efficiency and transition stability from physical to virtual servers.

4.5. Customer Services

Customer feedback and suggestions play a key role in our business development. Therefore, we have set up a dedicated customer service team. We strive to understand the needs and expectations of our customers and collect valuable feedback from them through our dedicated customer service team, and we also collect feedback from our customers on a monthly basis. We continue to receive, respond to and follow up on customer feedback on our products and services through various customer communication channels, including customer hotline, email, fax, instant messaging, web forums, on-site visits, etc. If we receive a customer request or enquiry, our customer service team will work closely with our system maintenance centre and R&D department to solve enquiries raised by our customers with our professional knowledge.

During the Reporting Period, the Group received a total of 294 complaints from our customers, all of which have been dealt with. The number of complaints increased significantly from 189 in 2020, as the number of additional brokerage firm customers increased and more and more individual issues are found in the trading function. The customer service rating during the Reporting Period also reached 99%.

4.6. Supply Chain Management

Our main suppliers include market data providers and cloud infrastructure service providers. In order to ensure stable and quality services, we have established a rigorous evaluation process that includes supplier qualifications, service quality, supply capability, price, operational status and reputation as selection criteria. The main responsibilities of our procurement staff include (i) reviewing the procurement requests prepared by our R&D department as well as sales and marketing department; (ii) identifying and contacting suitable suppliers for the Group; and (iii) negotiating and liaising the relevant terms with the suppliers. During the Reporting Period, among our major suppliers, 3 of them came from Mainland China and 2 of them came from Hong Kong.

5. PEOPLE-ORIENTED

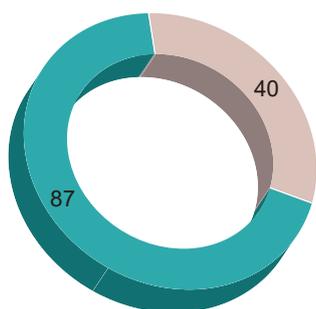

The Group recognises that its employees are valuable assets of the Company and that they are the backbone of the Group and support the entire business operation. We strive to provide a stimulating and harmonious working environment for our employees, and we show our support for them by placing great emphasis on their rights and benefits.

5.1. Responsible Employment

The Group strictly complies with laws and regulations such as Labour Contract Law of the PRC (《中華人民共和國勞動合同法》), Labour Law of the PRC (《中華人民共和國勞動法》), Law on the Protection of Minors (《未成年人保護法》), Provisions on the Prohibition of Using Child Labour (《禁止使用童工的規定》) and Employment Ordinance (《僱傭條例》) of Hong Kong, and recruits in a variety of ways, taking into account educational background, experience and other related qualities. We verify relevant personal information of suitable candidates and the human resources and administration department would check their identification documents and age to prevent child labour at source. We also prevent forced labour by clearly stating the working hours of our employees in the employment letters. In case of any violation, we would handle the situations in accordance with clear stipulation in the Staff Handbook of the Group.

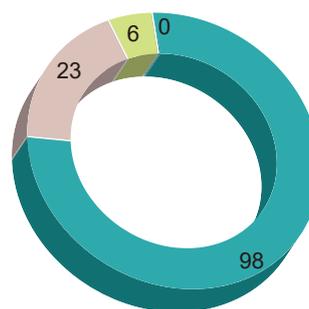

During the Reporting Period, no case of child labour or forced labour is identified in the Group. As of 31 March 2022, the Group had a total of 127 employees. The following charts show the proportions of our employees classified by gender, age group, employment type and geographical region:

Employees by Gender

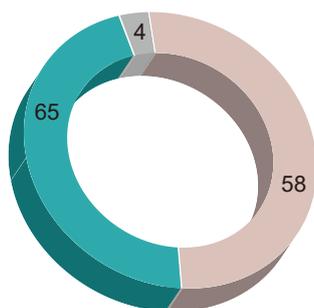

Female employees Male employees

Employees by Employment Type

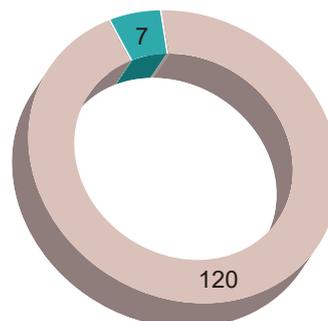

Short-term contract employees Entry-level employees
Mid-level management employees Senior management employees

Employees by Age Group

Employees aged below 30 Employees aged 30 to 50
Employees aged above 50

Employees by Geographical Region

Employees from South China Employees from other regions (including Hong Kong, Macau and Taiwan)

5.2. Health Protection

The Group is concerned about the health and safety of our employees. The Group complies with the laws and regulations such as Law of the PRC on the Prevention and Control of Occupational Diseases (《中華人民共和國職業病防治法》), Production Safety Law of the PRC (《中華人民共和國安全生產法》), Provisions on the Supervision and Administration of Occupational Health at Work Sites (《工作場所職業衛生監督管理規定》), Regulation on Work-related Injury Insurances (《工傷保險條例》), as well as the Occupational Safety and Health Ordinance (《職業安全及健康條例》) of Hong Kong. Even though we operate daily business mainly in the office, a relatively safe working environment, we never let up. Thus, we have prepared a series of occupational safety and health guidance, and maintain sufficient first-aid supplies and fire protection equipment in our office for emergency uses. We also encourage our employees to actively participate in the annual fire drills organised by the relevant building management companies, so as to enhance their ability to respond to crisis.

The Group also cares for employees' physical and mental health by providing sports equipments such as treadmill, elliptical trainer to help employees exercise and relax themselves. Over the past four years (the Year inclusive), there was no loss of working days arising from work-related deaths or injuries.

5.3. Staff Benefits

We respect the legal rights and labour contributions of our employees and provide them with a wide range of welfare protection. In addition to the five insurance policies and a housing provident fund as well as statutory holidays stipulated by the Chinese State Government, we also provide annual leave, bereavement leave, wedding leave, maternity leave and sick leave for our employees. We also provide additional medical coverage for our employees by insuring them upon joining the Company in accordance with the China Medical Plan arrangement. In terms of remuneration, apart from basic remuneration, the Group also grants discretionary bonuses with reference to its business performance and employees' individual performance. The long-term award schemes put forward by the Group include pre-IPO equity interest incentive scheme, a share option scheme and a share award scheme.

5.4. Talent Training

We believe that training and development help our employees thrive in the ever-changing business environment, thereby benefiting our business development and strengthening the Group's competitiveness. We nurture talents by providing diversified learning channels to enhance the professional knowledge and skills of our staff, and keep them abreast of industry information and keep them up to date. We also provide all staff with different kinds of training, such as compliance training from HKEX, training about the development and characteristics of the securities markets, training about history, development and corporate culture of the Company, etc., in order to boost the employees' knowledge and facilitate development for both the staff and group business. During the Reporting Period, all staff of the Group have received different training and we organise monthly training sessions on different topics, including introduction to the account opening system and the "TradeGo" Mac version, information security level protection training and new staff induction training, etc. These enable our staff to understand the latest development of the Company's products and industry trends, enrich their technical know-how and keep pace with the market.

In addition, we help each employee set up his or her own work objective and evaluate their performance annually. We actively provide opportunities for upward mobility of talents, and we will give priority to internal promotions before external recruitment when vacancies exist.

6. GREEN DEVELOPMENT

The Group is fully aware of its corporate responsibility to protect the environment. The Group has complied with the relevant laws and regulations relating to environmental protection such as the Environmental Protection Law of the PRC (《中華人民共和國環境保護法》) and Energy Conservation Law of the PRC (《中華人民共和國節約能源法》). We have developed a Corporate Environmental Policy (《企業環境政策》) to encourage our employees to conserve resources in their daily work. We operate our business primarily in our offices and are not subject to specific laws and regulations related to sewage discharge, gas emissions and land contamination. However, we continue to monitor and manage the environmental impacts caused by our business operations and minimise them as much as possible.

During the Reporting Period, the Group had neither violated any laws in relation to environmental protection, nor contributed to any material accidents leading to negative impacts on the environment and natural resources, nor received any punishment and notice of proceedings regarding the environmental scope in relation to the Group.

6.1. Low-carbon Operations

The Group recognises that reducing greenhouse gas (GHG) emissions is the most important means of mitigating climate change and that quantifying our greenhouse gas emissions provides the basis for further reductions. The Group's GHG emissions were mainly from the electricity consumption involved in office operations and we continued to conduct carbon emission calculations with reference to the Greenhouse Gas Protocol (《溫室氣體盤查議定書》) developed by World Resources Institute and World Business Council for Sustainable Development, and ISO14064-1 formulated by International Organization for Standardization.

The GHG emissions for the Group's headquarter in Shenzhen are as follows:

GHG Emission Performance		Unit	For the	For the
			year ended	year ended
			31 March	31 March
			2022	2021
GHG Emissions				
Scope 1	Direct GHG emissions	tonnes of carbon dioxide equivalent ("CO ₂ e")	0.0	0.0
Scope 2*	Indirect GHG emissions	tonnes of CO ₂ e	70.8	70.9
Total amount of GHG emissions		tonnes of CO ₂ e	70.8	70.9
GHG Emission Intensity				
Per square metre (Scope 1 and 2)		tonnes of CO ₂ e/m ²	0.04	0.05
Per employee (Scope 1 and 2)		tonnes of CO ₂ e/employee	0.6	0.7

Scope 1: The direct GHG emissions generated from the sources owned and controlled by the Group.

Scope 2: The indirect GHG emissions arising from electricity generation, heating and cooling or the vapour the Group purchased externally.

* The calculation of GHG emissions data during the Reporting Period has been updated, based on the emission factors of electricity issued by the National Development and Reform Commission

Other than the consumption of purchased electricity, the Group does not own or control other equipment that emits exhaust gas, therefore there is no relevant emission types and emission data.

6.2. Climate Change

In view of the increasing number of extreme climate events around the world, we started to focus on climate risk identification and assessment during the Reporting Period in order to enhance our resilience to climate change. Through enterprise risk assessment, we have considered the recommendations of the Task Force on Climate-related Financial Disclosures (“**TCFD**”) to fully manage the significant climate change-related risks that may affect us. In addition, we have regularly evaluated the effectiveness of our mitigation measures and areas of improvement, which further strengthened the resilience of our business to the effects of climate change. The climate change-related risks we have identified are mainly extreme weather risk, chronic physical risk, transition risk and market risk, which pose low to medium impact. The following are the significant climate related issues identified and the corresponding actions taken to minimise the impact of risk:

Risk levels	Climate risks	Actions taken to manage risk
Low	<p>Extreme weather (physical risk) brings typhoons, high temperatures, heavy rains, droughts, which may lead to disruption of platform services in severe weather and may require the temporary closure of office locations</p> <p>Chronic physical risks¹ such as temperature rise and sea level rise, possibly leading to property damage</p>	<ul style="list-style-type: none"> When the government department issues relevant extreme weather, the Company will implement measures to ensure the safety of employees, such as early release/working from home, depending on the situation. Review the impact of extreme weather on business and develop a “disaster recovery plan” to deal with the emergency. Back up the data in a timely manner to ensure it can be retrieved. Set carbon emission targets and reduction plans to meet the emission targets stipulated in Paris Agreement (《巴黎協議》) and contribute to climate change mitigation.
Medium	<p>Transition risks, such as the introduction of emission reduction regulations at where operations are located, which may require the Group to spend additional resources to cope with the regulations</p> <p>Market risk, such as the Company’s failure to meet consumers’ green operations expectations</p>	<ul style="list-style-type: none"> Pay close attention to regulatory developments related to the environment protection that may affect the business, supply chain and customers of the Company. Prioritise environmentally friendly investment products to support the transition towards a more inclusive, low-carbon economy.

¹ Chronic physical risks refer to risks derived from climate change over time (e.g. persistent high temperatures) that could cause sea level rise or persistent hot weather.

We are committed to implementing environmentally friendly offices to reduce GHG emissions. On the other hand, we will gradually implement measures to manage climate-related risks, in particular to improve our resilience to climate change and ensure that we can return to normal operations as soon as possible after severe weather. At the same time, we are keen to improve the stability of our trading platform to prevent instability caused by severe weather.

We will continue to regularly assess climate change-related risks and the mechanisms that address such risks in the future, so as to mitigate the impact of climate change on us and make a smooth transition to a low-carbon economy.

6.3. Green Office

As an integrated securities trading platform service provider, the nature of our business does not involve a significant impact on the environment or natural resources. However, we promote the efficient use of resources by our employees to improve the use of resources and energy efficiency and to maintain the long-term sustainability of our business and the communities in which we operate. We also convey the message on environmental protection through media such as e-mail, posters and internal network to enhance environmental awareness for our staff and facilitate the implementation of measures.

6.3.1. Proper Use of Energy

The Group promotes the safe use of electricity and conservation of electricity and educates its staff on the subject. Most of our energy consumption derives from our uses of lighting, air-conditioning systems and equipment in our offices. In order to reduce electricity consumption and carbon emissions, we have implemented the following measures:

Air-conditioning systems

- Avoid installing air-conditioners where the direct sunlight is available
- Clean the air filter screens/coil fans regularly to reduce unnecessary energy consumption
- Turn off air conditioning when not using the office
- Allow our staff to wear casual outfits in hot weather and on Fridays

Lighting systems

- Maximise the use of daylight for lighting to reduce power consumption
- Adopt high-efficiency lighting
- Install separate switches in meeting rooms to avoid use of lights in the unnecessary lighting zones for a long time
- Keep lighting fixtures and lamps clean to maximise their energy efficiencies
- Enable the staff to develop the habit of switching off lights when they are not in use

Electronic equipment and appliances

- Set the computers to go into automatic standby/sleep mode when it is idle
- Train employees to turn off electronic devices completely during non-working hours
- Consider the energy efficiency performance when purchasing electronic equipment

As a result of the above measures in our operations, both the intensity of electricity consumption per square metre and electricity consumption per capita decreased by approximately 13% during the Reporting Period. The following is the energy consumption of the Group's headquarter in Shenzhen during the Reporting Period:

	Unit	For the year ended 31 March 2022	For the year ended 31 March 2021
Total electricity consumption	kWh	121,817.0	116,277.0
Electricity consumption intensity			
Per square metre	kWh/m ²	68.4	78.7
Per employee	kWh/employee	959.2	1,118.0

6.3.2. Proper Use of Paper

The Group has adopted paperless electronic office systems for daily administrative work and encourages staff to replace paper records with electronic documents and electronic communications, so as to reduce paper usage and document printing. Where document printing is unavoidable, staff is encouraged to use small fonts, narrow line spacing, and double-sided printing and reuse or double-sided scrap paper whenever possible. Printers in our office are also preset to print on both sides of the paper in an ink-saving mode to reduce ink use and paper waste. We also start with the purchase of environmentally friendly materials and try to purchase printing paper, toilet paper and paper towels that contain recycled materials.

Paper consumption for the Reporting Period increased, but the paper consumption density per capita decreased by 13.4% during the Reporting Period. The following is the paper usage of the Group's headquarter in Shenzhen during the Reporting Period:

	Unit	For the year ended 31 March 2022	For the year ended 31 March 2021
Total paper consumption	kg	132.0	120.0
<hr/>			
Paper consumption intensity			
Per employee	kg/employee	1.0	1.2

6.3.3. Water Management

We encourage our staff to conserve water and start with education, such as posting water conservation signage to remind them to cherish water. If any leaking faucet is found, we will contact the property management company immediately to arrange maintenance work as soon as possible to reduce unnecessary wastage.

With the effective implementation of different measures, the water consumption intensity per capita and per square metre have decreased during the Reporting Period. The following is the water usage of the Group's headquarter in Shenzhen during the Reporting Period:

	Unit	For the year ended 31 March 2022	For the year ended 31 March 2021
Total water consumption	m ³	978.0	960.0
Water consumption intensity			
Per square metre	m ³ /m ²	0.55	0.6
Per employee	m ³ /employee	7.7	9.2

6.3.4. Waste Reduction

The Group promotes “waste reduction at source”, “reuse” and “recycling”, and strives to reduce waste generation. We assess the usage of materials to avoid overstocking and will avoid the use of disposable and non-recyclable products. We also encourage staff to use rechargeable batteries, reuse pen holders, envelopes, document folders, file cards and other office stationeries, and recyclable toner cartridges/ink cartridges.

We placed separate waste recovery bins for collecting paper, metal, plastics and batteries. The collected paper, metal, plastics and batteries will be sent to designated recycling stations for processing.

As a result of the above measures, the non-hazardous waste generation intensity per capita and hazardous waste generation intensity per capita decreased by approximately 9.0% and 6.4% respectively during the Reporting Period, compared with those during the previous year. The following is the data on waste production of the Group's headquarter in Shenzhen during the Reporting Period:

		For the year ended 31 March 2022	For the year ended 31 March 2021
	Unit		
Total amount of non-hazardous waste produced	kg	1,025	925.0
Total amount of hazardous waste produced	kg	8.0	7.0
Total amount of non-hazardous waste recycled	kg	56.0	48.0
<hr/>			
Intensity of waste produced			
Non-hazardous waste produced per employee	kg/employee	8.1	8.9
Hazardous waste produced per employee	g/employee	63.0	67.3
<hr/>			

6.3.5. Environmental Targets

Recognising our social responsibility to protect the environment, we set initial directional targets for the Year in terms of energy efficiency, water efficiency, waste reduction and GHG emissions. We will review and examine the progress of our environmental targets and initiatives, and monitor our emissions sources to identify further opportunities for energy savings and emission reductions. In the future, we will set more specific and quantifiable environmental targets to more effectively contribute to the mitigation of climate change by ensuring that resources are used appropriately.

Environmental Scope	Targets ²
Energy use efficiency and GHG emission ³	Maintain or gradually reduce electricity consumption by actively implementing the Group's electricity conservation measures
Water use efficiency	Maintain or gradually reduce water consumption by actively implementing the Group's water conservation measures
Waste reduction	Maintain or gradually reduce waste generation by actively implementing the Group's resources conservation measures

² The Group mainly operates its business in the office. We will regularly monitor the consumption of resources and the emissions in the office and adjust the targets according to the actual consumption and business situation

³ During the Reporting Period, the main source of our GHG emissions was indirect GHG emissions caused by the Group's purchased electricity, and therefore, GHG emissions could be effectively reduced by saving electricity consumption

7. CONTRIBUTION TO THE SOCIETY

While the Group is actively developing its business, we keep supporting various community involvement in order to give back to the society. We will take the advantage of our expertise in the industry to actively collaborate with charities and participate in various community investments and charity activities in the future. We will also continue to foster a sense of social responsibility among our employees and encourage them to participate in voluntary projects and/or community activities on their own initiatives. Looking ahead, we will fully utilise the Group's business strengths to develop community investment plans, invest more resources in charity activities and make more contributions to the community.

APPENDIX I: SUSTAINABILITY DATA STATEMENTS

Environmental Performance	Unit	For the year ended 31 March 2022
GHG emissions		
Direct GHG emissions (Scope 1)	tonnes of CO ₂ e	0.0
Indirect GHG emissions (Scope 2)	tonnes of CO ₂ e	70.8
Total GHG emissions (Scope 1 & 2)	tonnes of CO ₂ e	70.8
GHG emission intensity (per square metre)	tonnes of CO ₂ e/m ²	0.04
GHG emission intensity (per employee)	tonnes of CO ₂ e/ employee	0.6
<hr/>		
Energy consumption		
Purchased electricity consumption	kWh	121,817.0
Purchased electricity consumption intensity (per square metre)	kWh/m ²	68.4
Purchased electricity consumption intensity (per employee)	kWh/employee	959.2
<hr/>		
Water consumption		
Total water consumption	m ³	978.0
Water consumption intensity (per square metre)	m ³ /m ²	0.55
Water consumption intensity (per employee)	m ³ /employee	7.7
<hr/>		

Environmental Performance	Unit	For the year ended 31 March 2022
Paper consumption		
Total paper consumption	kg	132.0
Paper consumption intensity (per employee)	kg/employee	<u>1.0</u>
Waste		
Total non-hazardous waste produced	kg	1025.0
Intensity of non-hazardous waste produced (per employee)	kg/person	8.1
Total non-hazardous waste recycled	kg	56.0
Total hazardous waste produced	kg	8.0
Intensity of hazardous waste produced (per employee)	g/person	<u>63.0</u>

Social Performance⁴	Unit	For the year ended 31 March 2022
Total number of employees	Person	127
Number of employees by gender		
Female employees	Person	40
Male employees	Person	87
Number of employees by employment type		
Short-term contract employees	Person	0
Entry-level employees	Person	98
Middle-level management employees	Person	23
Senior management employees	Person	6
Number of employees by age group		
Employees aged below 30	Person	58
Employees aged 30 to 50	Person	65
Employees aged above 50	Person	4
Number of employees by geographical region		
Employees from South China	Person	120
Employees from other regions, including Hong Kong, Macau and Taiwan	Person	7

⁴ Disclosure of Social Key Performance Indicators includes group-wide data

Social Performance⁴	Unit	For the year ended 31 March 2022
Total employee turnover rate⁵		23.5%
Employee turnover rate by gender		
Female employees		8.0%
Male employees		18.1%
Employee turnover rate by age group		
Employees aged below 30		18.1%
Employees aged 30 to 50		8.0%
Employee turnover rate by geographical region		
Employees from South China		23.5%
Employees from other regions, including Hong Kong, Macau and Taiwan		0.0%
Percentage of employees trained		100%
Average training hours per employee by gender		
Female employees	Hour	7.2
Male employees	Hour	7.2
Average training hours per employee by employment type		
Entry-level employees	Hour	9.5
Middle-level management employees	Hour	5
Senior management employees	Hour	2

⁵ Turnover rate = number of employees lost ÷ (number of employees lost + number of employees at the end of the year) × 100%

APPENDIX II: THE HONG KONG STOCK EXCHANGE ESG REPORTING GUIDE INDEX

Index Content		Related Section(s)
A. Environmental Scope		
A1 Emissions	General Disclosure	Information on: (a) the policies; and (b) compliance with relevant laws and regulations that have a significant impact on the issuer relating to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste.
	A1.1	Types of emissions and respective emissions data.
	A1.2	Direct (Scope 1) and energy indirect (Scope 2) greenhouse gas emissions and, where appropriate, intensity.
	A1.3	Total hazardous waste produced and intensity.
	A1.4	Total non-hazardous waste produced and intensity.
	A1.5	Description of the emission target(s) set and the steps taken to achieve them.
	A1.6	Description of how hazardous and non-hazardous wastes are handled, and a description of the reduction target(s) set and steps taken to achieve them.
		6. Green Development
		6.1. Low-carbon Operations

Index Content		Related Section(s)	
A2 Use of Resources	General Disclosure	Policies on the efficient use of resources, including energy, water and other raw materials.	6.3. Green Office
	A2.1	Direct and/or indirect energy consumption by type (e.g. electricity, gas or oil) in total and intensity.	6.1. Low-carbon Operations Appendix I: Sustainability Data Statements
	A2.2	Water consumption in total and intensity.	6.3.3. Water Management Appendix I: Sustainability Data Statements
	A2.3	Description of energy use efficiency target(s) set and steps taken to achieve them.	6.3. Green Office
	A2.4	Description of whether there is any issue in sourcing water that is fit for purpose, water efficiency target(s) set and steps taken to achieve them.	6.3.3. Water Management 6.3.5. Environmental Targets The Group's water comes from the municipal water supply and has no problem in obtaining suitable water sources
	A2.5	Total packaging material used for finished products and with reference to per unit produced.	Not applicable, the Group's business is not involved in packaging materials
A3 The Environment and Natural Resources	General Disclosure	Policies on minimising the issuer's significant impacts on the environment and natural resources.	6. Green Development
	A3.1	Description of the significant impacts of activities on the environment and natural resources and the actions taken to manage them.	6. Green Development
A4 Climate Change	General Disclosure	Policies on identification and mitigation of significant climate-related issues which have impacted, and those which may impact, the issuer.	6.2. Climate Change
	A4.1	Description of the significant climate-related issues which have impacted, and those which may impact, the issuer, and the actions taken to manage them.	6.2. Climate Change

Index Content		Related Section(s)
B. Social Scope		
B1 Employment	General Disclosure	Information on: (a) the policies; and (b) compliance with relevant laws and regulations that have a significant impact on the issuer relating to compensation and dismissal, recruitment and promotion, working hours, rest periods, equal opportunity, diversity, anti-discrimination, and other benefits and welfare.
	B1.1	Total workforce by gender, employment type, age group and geographical region.
	B1.2	Employee turnover rate by gender, age group and geographical region.
B2 Health and Safety	General Disclosure	Information on: (a) the policies; and (b) compliance with relevant laws and regulations that have a significant impact on the issuer in relation to the provision of safe working environment and protecting employees from occupational hazards.
	B2.1	Number and rate of work-related fatalities occurred in each of the past three years including the reporting year.
	B2.2	Lost days due to work injury.
	B2.3	Description of occupational health and safety measures adopted, and how they are implemented and monitored.
		5.1. Responsible Employment 5.3. Staff Benefits 5.1. Responsible Employment Appendix I: Sustainability Data Statements Appendix I: Sustainability Data Statements 5.2. Health Protection 5.2. Health Protection 5.2. Health Protection

Index Content		Related Section(s)
B3 Development and Training	General Disclosure	Policies on improving employees' knowledge and skills for discharging duties at work. Description of training activities.
	B3.1	The percentage of employees trained by gender and employee category (e.g. senior management, middle management).
	B3.2	The average training hours completed per employee by gender and employee category.
B4 Labour Standards	General Disclosure	Information on: (a) the policies; and (b) compliance with relevant laws and regulations that have a significant impact on the issuer relating to preventing child and forced labour.
	B4.1	Description of measures to review employment practices to avoid child and forced labour.
	B4.2	Description of steps taken to eliminate such practices when discovered.
B5 Supply Chain Management	General Disclosure	Policies on managing environmental and social risks of the supply chain.
	B5.1	Number of suppliers by geographical region.
	B5.2	Description of practices relating to engaging suppliers, number of suppliers where the practices are being implemented, how they are implemented and monitored.

Index Content		Related Section(s)		
	B5.3	Description of practices to identify environmental and social risks along the supply chain, and how they are implemented and monitored.	4.6. Supply Chain Management	
	B5.4	Description of practices to promote environmentally preferable products and services when selecting suppliers, and how they are implemented and monitored.	4.6. Supply Chain Management	
B6	Product responsibility	General Disclosure	Information on: (a) the policies; and (b) compliance with relevant laws and regulations that have a significant impact on the issuer relating to health and safety, advertising, labelling and privacy matters relating to products and services provided and methods of redress.	4. Quality Services
	B6.1	Percentage of total products sold or shipped subject to recalls for safety and health reasons.	4.5. Customer Services	
	B6.2	Number of products and service related complaints received and how they are dealt with.	4.5. Customer Services	
	B6.3	Description of practices relating to observing and protecting intellectual property rights.	4.3. Intellectual Property Rights	
	B6.4	Description of quality assurance process and recall procedures.	4.4. Quality Assurance With respect to products recall procedures, they are not applicable to the Group's operations	
	B6.5	Description of consumer data protection and privacy policies, how they are implemented and monitored.	4.2. Data Security
