CHARACTERISTICS OF GEM (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

Chairman's Statement

Dear Shareholders,

On behalf of the board (the "**Board**") of Directors of TradeGo FinTech Limited (the "**Company**"), I am pleased to present you with the interim report of the Company and its subsidiaries (collectively the "**Group**") for the six months ended 30 September 2020 (the "**Reporting Period**").

During the Reporting Period, although the trade war between China and the United States of America eased slightly, the downward pressure on the global economy continued to intensify. The central banks cut interest rates more fiercely, and the Hong Kong stock market showed drastic fluctuations. On the other hand, there were well-known enterprises initially listed in the Hong Kong's Stock Exchange during the Reporting Period, which made the Hong Kong initial public offerings ("**IPO**") market more active. In this context, despite the uncertainty in the macro-economy remains, the management team remains cautiously optimistic towards the Group's future development.

During the Reporting Period, the total revenue of the Group increased by approximately HK\$8,024,549 or 36.7% to approximately HK\$29,896,431 (for the six months ended 30 September 2019: approximately HK\$21,871,882).

We are pleased with the steady improvement in our financial performance, which was mainly attributable to our SaaS business model based on cloud infrastructure, as well as the persistence and unremitting efforts in the field of integrated securities trading platform services.

The circular of the Securities and Futures Commission ("**SFC**") issued on 28 June 2019 informed intermediaries that some non-face-to-face account opening approaches via internet have been acceptable from 5 July 2019. From then on, more and more brokerage firms have changed their face-to-face account opening to online non-face-to-face account opening for expanding customer base. Coupled with the novel Coronavirus 2019 ("**COVID-19**") epidemic, many brokerage firms conduct their business online, thus making our online account opening appointment system more widely used. During the Reporting Period, twelve more Hong Kong brokerage firms chose the Group as their online appointment booking service provider, resulting in a revenue increase of 241% to HK\$2.99 million (approximately HK\$0.87 million for the six months ended 30 September 2019) from our online account opening appointment services. Further, during the Reporting Period, various companies, including some famous companies, have listed in or returned to the Hong Kong's Stock Exchange from other markets. The IPO market in Hong Kong has become increasingly active, attracting more and more individuals and institutional investors to participate in the Hong Kong stock market. We are committed to providing more comprehensive system services and operational services for Hong Kong brokerage firms. We will not only provide account opening and trading system services, but also strive to help Hong Kong brokerage firms improving their operational capabilities.

The number of registered users of our Group's products increased by approximately 166,000 or approximately 67.2% to approximately 413,000 as at 30 September 2020 (approximately 247,000 as at 30 September 2019). Our open securities trading platform software "TradeGo Pro" has become an important platform for investors to obtain information on the IPO of companies. We are proud of the growing number of registered users of the "TradeGo Pro". During the Reporting Period, the revenue of TradeGo Pro increased by 870% to HK\$4.09 million (approximately HK\$0.42 million for the six months ended 30 September 2019).

The Group was one of the leading integrated securities trading platform service providers. During the Reporting Period, the Group continued to increase its investment in research and development ("**R&D**") to actively expand its front office trading system services and signed the new front office trading system services contracts with six Hong Kong brokerage firms. Up to now, a total of 39 Hong Kong brokerages firms are using our online account opening appointment system and a total of 42 Hong Kong brokerages firms are using our cloud infrastructure services.

Chairman's Statement

With reference to the Company's announcement on 7 July 2020 and 22 October 2020, in order to better provide services to professional institutional investors, Tele-Trend Konson (Hong Kong) Limited ("**Tele-Trend Konson**"), an indirect wholly-owned subsidiary of the Company, entered into the Capital Contribution Agreement with AWSG (China) Limited ("**AWSG (China)**"), pursuant to which Tele-Trend Konson and AWSG (China) have set up a subsidiary in the British Virgin Islands which wholly owned a subsidiary in Hong Kong (the "**Hong Kong Subsidiary**"), both named "AWSG TradeGo Capital Limited". Subsequent to the Report Period, the Hong Kong Subsidiary (as a general partner) has set up a limited partnership fund named "AT CAPITAL LPF" (the "**LPF**") in Hong Kong. The LPF has been registered at the Hong Kong Companies Registry on 20 October 2020. The Hong Kong Subsidiary will principally provide over-the-counter services, institutional grey market trading services as well as professional institutional investors services in Hong Kong securities after the licences for Type 1 (dealing in securities) and Type 7 (providing automated trading services) regulated activities under the Securities and Future Ordinance (the "**SFO**") are obtained.

On behalf of the Board, I would like to take this opportunity to express my sincere gratitude to our shareholders, customers and business partners for their continuous support, as well as to our management and staff members for their diligence and contribution to the growth of the Group.
